Re: FCC ID: YVDMDC2

To Whom It May Concern:

The following application is submitted on behalf of our client, Cubic Global Tracking Solutions, for evaluation of their model MDC-2 for certification under FCC Part 15.247.

The MDC-2 is a battery powered sensor node operating in the frequency range of 2405MHz to 2480MHz used to wirelessly monitor and report status of multiple sensors as well as route messages in support of mesh network operation.

The MDC-2 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
